

Certified Ink Solutions

Product Description

GTUS Inks are engineered for optimal system performance. GTUS Inks utilize the narrowest particle size distribution of colorants in the industry. Using a holistic design approach, from bottle to substrate, GTUS Inks provide ease of use and trouble free operation. With extensive QA testing and efficient manufacturing procedures, GTUS Inks produces quality ink products that remain consistent from batch to batch. Reduced nozzle drop out, extended storage conditions, and optimal adhesion are only a few of the results of the GTUS Ink development cycle.

Features

MADE IN USA! Inks for all applications. Reach your printers full potential. High Quality. Best Adhesion. Extra Durable. Brighter Color. Premium Printing. Less Waste. Best Color Gamut.

Uses

UV. LED. Aqueous. Solvent. Black. White. Spot Color. Clear. Security. Metallic. Sig Panel. Various Colors. Custom Solutions.

Support

Various Colors. Custom Solutions. Secure your products with hidden information. Training and installation available. MADE IN USA!

Testimonial

"GTUS Inks were better for adhesion, color density, and ease of use over a wider variety of substrates. We are very pleased with the products provided".-Mark Luger, Travel Tags
